PETITIONING THE COURT

To issue a summons.

On May 22, 2019, a U.S. probation officer met with Mr. Johnley upon his release from custody. Mr. Johnley reviewed and signed the judgment and sentence, which outlined the conditions of his term of supervised release.

The probation officer believes that the offender has violated the following condition of supervision:

Violation Number Nature of Noncompliance

1 **Special Condition #7:** You must abstain from the use of illegal controlled substances, and must submit to urinalysis and sweat patch testing, as directed by the supervising officer, but no more than 6 tests per month, in order to confirm continued abstinence from these substances.

Supporting Evidence: Mr. Johnley is considered to be in violation of his supervised release conditions by consuming a controlled substance, methamphetamine, on or about April 5, 2022.

On April 5, 2022, Mr. Johnley reported to the probation office and submitted to a urinalysis (UA). The specimen was presumptive positive for methamphetamine. The specimen was sent to Alere Toxicology Services (Alere) laboratory for confirmation testing.

On April 11, 2022, this officer received the test results from Alere and the specimen provided by Mr. Johnley was confirmed positive for the presence of methamphetamine.
